

STAINED GLASS BUTTERFLY

Each Kit Includes

- 1 butterfly coloring sheet
- 1 sheet of Press'n Seal
- 3 sheets of tissue paper

Additional Materials

- Permanent marker
- Scissors

1. Get your materials ready.

2. Place piece of Press'n Seal sticky side up on top of a butterfly coloring sheet.

3. Trace the butterfly shape on the Press'n Seal. You can be as detailed as you want, but keep in mind that the marks will show through. Be careful since the sheet is sticky and moves around.

4. Cut or tear the tissue paper into small pieces and place on the sticky side of the Press'n Seal within the butterfly shape.

5. OPTIONAL: Once you are satisfied with your tissue paper placement, you can trim off excess Press'n Seal, but make sure to leave enough around the edges!
6. Carefully place your butterfly on a window, sticky side against the glass, to enjoy your stained-glass butterfly.
7. OPTIONAL: If you have more Press'n Seal on hand, you can put a second sheet on top of your butterfly, sticky side down, and cut out the butterfly to hang somewhere else.
8. After you're done, you can color in the butterfly coloring sheet, too!
