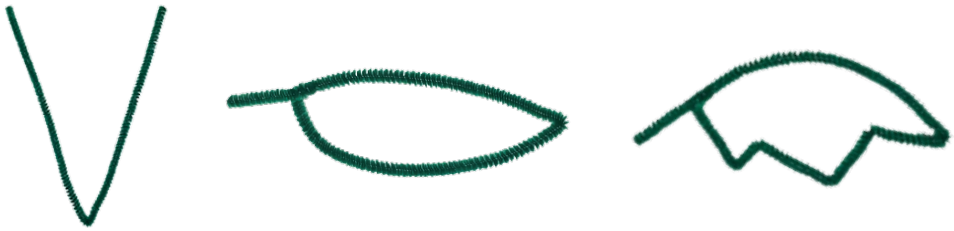
Ornament 3 (Hard)

Materials:

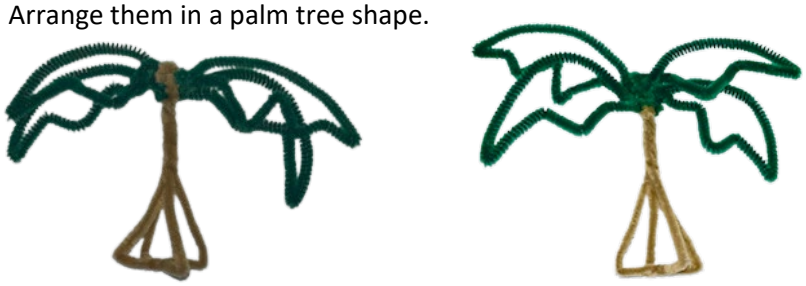
- 2 brown pipe cleaners
- 4 green pipe cleaners
- Ornament pieces

1. Take both brown pipe cleaners and twist them together at the center. Lay them out in an X shape and bend each leg up ½ inch out from the center. Bring the folded legs together and start twisting one inch from the bottom so that you have a tree trunk. Leave ½ inch remaining of the ends at the top.

2. Fold each green pipe cleaner in half and twist one end to the other, leaving ½ inch, so that you have a leaf and stem shape. Bend one half of each green leave so that they look like palms. (The best way to fold is to go from the tip in. Where the bottom of the leaf is, bend in a little bit, then down, then back up, then down. You should have three points on the bottom—the tip and two others.)



3. Hold your four leaves by the ends that you left loose and twist the brown tips around them to secure them. Arrange them in a palm tree shape.



4. Attach ornament pieces to the green pipe cleaners.
